Data filter permissions

Data filter permissions
Choose specific access permissions to grant.

☒ Select ☐ Describe ☐ Drop

Grantable permissions

Choose the permission that can be granted to others.

☒ Select ☐ Describe ☐ Drop

Copyright © 2012 Pearson Education, Inc. All rights reserved.

❗ Select permissions on data filters will grant access to the table 'operations_datalake_61ddc230'.

In hybrid access mode, Lake Formation and IAM policies for AWS Glue and S3 work together.

☐ **Make Lake Formation permissions effective immediately**
Lake Formation permissions are enforced for databases, tables, and principals.

i You might get access denied.

If the checkbox is selected, your Lake Formation permissions are enforced. Make sure that you've completed the required setup for Lake Formation for the permissions to work. If the checkbox is clear, you can go to [hybrid access mode](#) to add resources and principals. [Learn more](#)
